

CLAYS AROUND THIS
CITY VERY VALUABLE

Heinrich Riech, of Geological Survey Branch, Department of Mines, makes interesting report on the clay products of Edmonton district.

"The development of the clays around Edmonton is of the highest economic importance as the demand there for all grades of structural clay products is large.

These are the words used by Heinrich Riech in a report on the clays of Western Canada, submitted to the Dominion government and contained in the 1910 report of the Geological Survey branch of the department of mines sent to his hand. During the summer of last year Messrs. Riech and Keefe toured Western Canada to examine the country for clays that would be valuable for the various manufactured clay products and report on the possibilities of the industry in the west. Riech time was spent in the vicinity of Edmonton and Strathcona. Within the area examined, the shales overlying the coal seams were in the opinion of the experts the best; they "appear to represent the best type of material to be found in the immediate vicinity of Edmonton and Strathcona. The best observed exposures for just north of Strathcona in the valley of Mill creek, and along the Edmonton, Yellow and Pacific railways. They are excessively plastic, and are said to be a virgin body. No claim is made for a high refractoriness, but some of them have a rather high shrinkage. The horizon should be highly prospectively to determine the occurrence of clays at other localities.

The same publication contains the results of the work of Dr. B. Dowling examined the park and the coal deposits found therein, taking samples of most of the coal from the different layers. He also examined the water from the famous hot springs in the neighborhood of Fiddle Creek. In addition to treating of the geological history of these regions he recounts the indications found of valuable minerals and the development that has so far attended the discovery of them. In addition to coal, limestone, marble and a question of time which are also developed and make great industries tributary to Edmonton. Interesting analyses of the coal and of the water from the mineral springs forms one of the features of the report.

CHANGES IN N.S. CABINET.

Appointments to Murray Government to fill vacancies.

Edmonton, July 3.—Vacancies in the Murray Government, caused by the changes caused by the general elections, have been filled by the appointment of Hon. George R. Paulk.

Mr. M.P.P. for Halifax, H. M. McGowan, M.P.P. for Pictou, and J. W. Jones, M.P.P. for Digby, as members of the executive council without portfolio. Mr. Paulk, who was appointed to the last House, is the Hon. David Macpherson, of Halifax, who did not seek re-election. Mr. Macpherson takes the place of Hon. C. P. Pearson, who was defeated in the last election. Mr. Jones, who was defeated in the last election, is the Hon. H. B. LePage, who was defeated in the last election. The latter is the representative of the Ardenian section of the population. All are young and energetic men. It is expected that the cabinet will be vacated for Hon. C. P. Pearson, who was defeated in the last election, thus enabling him to continue to hold his portfolio as commissioner of works and mines.

The cabinet, however, will have substantial victories, including the re-election of their union, which proved the chief obstacle to a settlement in Liverpool, Glasgow and other ports and led to the holding up of numerous Atlantic liners. These storms have now obtained crews which enable them to sail at an early date.

BANK CLEARINGS
MONTH OF JUNE

Records for Twenty Canadian Cities, With Figures for the Corresponding Month Last Year.

Toronto, Ont., July 5.—The Canadian bank clearings for the month of June, 1911, as compared with June, 1910, are as follows:		
Montreal, ..	\$2,044,449,960	\$1,717,725,729

GAS AGREEMENT WAS APPROVED

Special Committee Unanimously Endorses Model Gas Agreement

The model gas agreement prepared by Commissioner Doolittle and approved by the Special Committee on Monday night, July 3, 1911, was submitted to the industrial committee of the city council and the committee yesterday afternoon, and without any other than a unanimous vote to the approval of certain clauses, was unanimously approved by the committee.

The new agreement is designed to place company operation of a gas plant which shall be under the virtual control of the city. The agreement provides that the company's profits are limited and the price of gas is reduced as the profits increase. The company is allowed to draw seven per cent on the capital investment. When the profits reach a higher percentage and do not exceed six per cent the amount above seven per cent is divided equally between the city and the company. When the profits reach a figure in excess of nine per cent for two consecutive years, the price of gas is automatically reduced to a point where the company's profit is seven per cent on an initial price the agreement provides that gas shall be sold for \$1.15-2 per thousand cubic feet net. This is the same price as was in effect in the other agreement.

Guarantee of Bonds.
A new feature to the agreement, and the provision which will limit the limitation of profits and control by the city is the fact that the city undertakes to guarantee the bonds of the company for eighty per cent of the capital investment. It is provided that after the company has expended any \$100,000 in the erection of its plant the city shall guarantee the bonds of the company for an additional \$100,000. The city shall not be placed to the joint credit of the city and the company, and shall not be paid out of the vouchers and expenditures are approved by the city.

The agreement provides that the city shall at all times have access to the company's books, the company being virtually under the name control as to the company's books and accounts as any department of the city.

City Thoroughly Safeguarded.
"It has tried to make this agreement as nearly as possible conform to the principle of municipal control with private management," said Commissioner Doolittle at the conclusion of the discussion of the draft agreement by the industrial committee. "I believe as it now stands, the agreement thoroughly safeguards the city. It enables the municipality to control the actual expenditure and earnings of the company."

In the drafting of the new agreement, Commissioner Doolittle has been engaged continuously since June 18th, devoting to it such of his every day as he was permitted by his other duties.

Maintain at Par Value.
The new agreement proposes a plan which under its terms must be maintained at par value, either by prompt up-keep or by redemption of the bonds at par value.

The time of the grant is fixed at 25 years, with the right to purchase at 10 years if the company has made an average of 7 per cent on the capital investment during that time.

The grant can not be assigned or mortgaged without the consent of the city.

The Principal District.
A principal district is mapped out which must be covered by a distribution system on or before July 31st, 1912.

A LUXURIOUS GROWTH OF HAIR

Does Not Follow Neglect of the Scalp

Aside from combing it when they think it necessary many women pay no attention whatever to their hair. They never occur to them that their trouble is the result of personal carelessness.

An occasional application of Newb's Hairdye will not only prevent loss of hair but permits a luxuriant growth.

Hairdye kills the germ that cannot destroy an old hair, nor does it cause any irritation. It is a scalp cleanser and free from dirt, allowing the hair to grow as nature intended.

Newb's Hairdye is sold by all druggists and its manufacturers have such confidence in its germ destroying power that they guarantee the money back to guarantee the one dollar sale bottles to be as claimed or money refunded.

Applications may be obtained at local druggists.

Send the postage for sample and booklet to The Hairdye Co., Dept. B, Detroit, Mich.

C. H. Graydon, Special Agent, Edmonton.

AROUND THE CITY

LOCAL

with street work pavements, etc. The capitalization of the company must be on a basis of actual cash. Shares must be paid for at par and can never be issued at a discount.

The accounts and records of the company are subject to the check of the city.

Seven Per Cent Profit.
The return is limited to 7 per cent on investment. Any earnings above 7 per cent are to be divided equally between the city and the company. On the profit reaching more than 7 per cent for more than two consecutive years, the gas rates are to be reduced to bring back the rate of return to 7 per cent.

The city's right to purchase contemplate the paying out of only a proportion of the value of the plant not yet covered by redemption funds.

The city guarantees the bonds of the company to the extent of 80 per cent of the investment.

Quality of Gas.
The quality of the gas is to be 60 Btu. British Thermal Units, 100 more than required in the previous agreement.

Otherwise the gas is to conform to the requirements of the Dominion Gas Inspection Act.

The initial price of gas is to be \$1.15 per cubic foot, subject to a discount of 10 per cent for prompt payment.

The meters are to be subject to the Dominion Gas Inspection Act. Slot machine meters are barred where there is danger of asphyxiation through their use.

The forms of contract and their manner of collection are subject to the approval of the city.

A fair wage clause is introduced in the agreement, to affect all work of the company and all contracts as to the company.

Provision is made for a readjustment of rates in event of the discovery of natural gas.

Future's Weather Forecast.

Windsington, Ont., July 3.—The latest bulletin from the forecasts of disturbances to cross central July 4 to 7, warm weather, with a heavy S. to S. W. wind. It will be a hot wet storm but it promises to bring good showers in many places as the cold wave comes in. Near July 4 all weather events will increase in force and heavy storms may be expected. If earthquakes continue about the same time, they will be of much less force, but the interest for us in earthquakes is that they lessen the probability of the great storms which quakes and tornadoes come to us through.

Next disturbance will reach Pacific coast about July 7, cross Pacific coast by line of 6, great central valleys 9 to 11, eastern sections 12. Warm waves will cross about July 10, great central valleys 9, eastern sections 12. Cool wave will cross Pacific coast about July 10, great central valleys 12, eastern sections 14.

July 14, cool wave will cross Pacific coast about July 11, great central valleys 12, eastern sections 13. Cool wave will cross Pacific coast about July 14, great central valleys 16, eastern sections 18.

This will be a low temperature disturbance, and promises good rains in many places. Principally, rain will come with next disturbance.

The predicted drought for May and June has been more in the southwest part of the great central valleys than in the north and northeast, but drought on the crops have been in accord with the forecasts, but some rainfall in the north and northeast has more rain than was expected.

Calgary Expects Big Crowd Today.

Calgary July 3.—American Day at the Calgary exhibition is bringing from many sections of the west American people who are gathering to celebrate Independence Day. To-day's session of the fair saw an extra large crowd through the grounds. The weather was sunnier than anticipated but in the afternoon it cleared somewhat and the fair grounds became packed with visitors.

Stock Exchange Officers.

Winnipeg July 3.—L. T. Champion was elected President at the annual meeting of the Winnipeg Stock Exchange today. W. Mansfield Evans was elected secretary. W. T. Kiley and T. H. Ross were elected assistant secretaries. The total stock traded in totalled \$319,255 exclusive of South African.

Washburn Near Perdue.

Perdue, Sask. July 3.—Going to a washout on the C.P.R. line a mile west of Perdue the passenger train was held up several hours. The washout was caused by four freight trains and high and right rain to a bridge. There has been rain every night for two weeks.

Wounded by Turpentine.

Edmonton July 3.—Missing on a picnic Fourth of July took place a man named Simon Shum was found lying in a ditch, having been struck by a turpentine barrel. He was taken to the hospital and is now recovering.

Edward O'Brien, manager of the Sun Life Assurance company in Montreal, is in the city for the purpose of investigating the opportunity offered here for the establishment of a large poultry farm.

The double corner on Judge Avenue and Fourteenth street, lots 78 and 79, was purchased by H. H. Shaver, of Wilbury, Ont., and George F. Doherty, real estate agent of this city, for the sum of \$10,000.

The regular monthly meeting of the Central Alberta Medical Association will be held in the city court chamber next Wednesday, when the agreement of the value of the plan of the Provincial Association which opens here on August 14 and extends for three days will be discussed.

The City League baseball game, and his visit to Trinity Church, and the finding of his boy, John, his trouble with the mail man, his complete routing of the Harmon spider, his return home and the grand reunion and country dance are still as delightfully natural as they have been for the past two weeks.

Mr. Deloy has been in the city for the purpose of securing information which will be of advantage to the new settlers. Mrs. H. M. president of the board of the Women's Missionary Society of the Methodist church at Edmonton, dressed a union meeting in McEwen's hall, where she was present.

At the meeting a reception committee held and Edmonton women were given a chance to meet Mrs. Ross.

PERSONAL.

Miss Phyllis Hall, of Calgary, is visiting her mother, Mrs. H. Woodland, the wife of Mr. Woodland.

Miss Pauline Fowkes, claiming to be a student of the Fort-Taylor school, was arrested by the police on July 2 and charged with having stolen \$10 and costs by Magistrate Cowan in the Police Court yesterday afternoon.

BIG HIT BY CAR.

A badly battered car was that returned to Edmonton today this morning about one o'clock by Geo. McKay and a companion who had returned from Strathcona with a vehicle hired from the latter early in the day.

The two men when crossing the bridge were hit by street car No. 11 and horse, carriage and occupants were thrown in a heap and shoved some distance before the car could be stopped. When the field was cleared it was found that in addition to minor damage, the seat was broken and the running gear of the buggy twisted. On returning to the driver, the driver at first refused to pay for the damage done, but when complaint was made to the police they decided to meet their demands and the bill was settled.

NO DISMISSAL TONIGHT.

It is understood that Commissioner Doolittle and Hutchart will be dismissed at the meeting of the city council this evening. Solicitor McCall has advised that the commissioners tried to dismiss the council members, but they would not be complying with every technicality of law. It being recalled that before being dismissed a commissioner must first be given notice. Each of the commissioners was served with formal notice yesterday afternoon to be present at the meeting of the council tonight when they will be advised of the fact that the council desires to dispense with their services. This means that the commissioners, Doolittle and Hutchart, will be in office for at least twenty days more.

It is expected at the meeting of the council tonight the agreement approved by the industrial committee and the commissioners yesterday afternoon will be presented and given its various readings.

CENSUS WORK ABOUT FINISHED.

Major Dehla Thibauden, census taker for the Edmonton Federal district, has informed the Bulletin that census enumeration in the city of Edmonton is practically completed and that his work will close this week. As there is a possibility that some dwellers in the city may have escaped enumeration, Major Thibauden would urge any such to call at the census office, Room 1, 218 Jasper avenue east and be counted as citizens of Edmonton and Canada before it is too late.

In a letter to the Bulletin the census commissioner says on this point: "To a large undertaking, as taking the census of the population of our city, a great many difficulties have been encountered and it is possible that some people may not have been included in our census work."

The great difficulty has been in the boarding houses and families, as well as the clear of numbers in commercial buildings and offices.

"Before closing my work, which will be done this week, I would ask the help of every citizen in the city to report to me if they think they have not been, or may not have been included in our census returns."

It is of the utmost importance that the census of Edmonton should be counted in any census work, and through the courtesy of this Bulletin, I am sure that those who have not, or may not have been included in the census returns, will be able to call at the census office, Room 1, 218 Jasper Avenue, and be counted.

Edmonton, July 3.

THE EMPEROR.

Donnan Thompson's celebrated play "The Old Homestead" comes to the city for a three day play commencing Thursday night. The play is a story of a man who has been away for many years, and who has returned to find his home in ruins.

play in design and other eastern style like to remember, it was spoken by Uncle Joshua and went something like this:

"Don't let this be your last visit to the old homestead, come up in June, when all nature is at her best and let the scarlet runners chase you back to nature."

With Mrs. Lawrence as Joshua Whitcomb, Ward E. Rimmeller as Mr. Prim, Frederick Lyon as Harry Jack, and Hilar McKegney as Bob Perkins, Mrs. Emma Chace as Aunt Mattie, and the balance of the cast in competent hands a true and vivid picture of the play is assured.

Uncle Joshua's home at West Swanton, New Hampshire, where the story commenced is faithfully depicted. The Old Homestead Quartet—soloists in the scenic production, and Uncle Joshua's trip to New York, his reception at the banker's home, and his visit to Trinity Church, and the finding of his boy John, his trouble with the mail man, his complete routing of the Harmon spider, his return home and the grand reunion and country dance are still as delightfully natural as they have been for the past two weeks.

Mr. Deloy has been in the city for the purpose of securing information which will be of advantage to the new settlers. Mrs. H. M. president of the board of the Women's Missionary Society of the Methodist church at Edmonton, dressed a union meeting in McEwen's hall, where she was present.

At the meeting a reception committee held and Edmonton women were given a chance to meet Mrs. Ross.

TURKISH BRUTALITY TOWARD ALBANIANS

Turks Killing Women and Children and Ravaging Whole District—Vengeance is Declared to be Very Cruel.

Vinca, July 3.—Reliable advices have been received here from Albania, that the situation there is extremely critical. Turkey has massed 15,000 troops within a day's march of the Montenegrin frontier.

Charles R. Taylor of Chicago, who has just arrived at Vienna from Constantinople, writes from that city, and describes the conditions as absolutely intolerable. The Turks, he says, are devastating the Albanian villages, prisoners, refugee women and children, burning houses and crops and attacking various points they are able to capture.

A large body of Albanian women and children have fled to Montenegro between two wings of the Turkish army and are being impounded. A latest report says that 2,000 women and children have fled to Montenegro and are being impounded. A large body of Albanian women and children have fled to Montenegro between two wings of the Turkish army and are being impounded.

At St. Petersburg, July 3.—The present time is additionally an anxious one for the Car, because his friend and kinsman, King Nicholas, has been sent to the Russian capital. The former minister has been deposed to ask Russia to guarantee Montenegro's rear guard against the military threats of Austria.

Montenegrins continue to help the Albanians against the Turkish government. It is barely a month since the Car issued a warning to Turkey to let Montenegro alone. His note, as far from doing good, only provoked Austria to challenge him publicly by declaring that he would be responsible for the maintenance of order in Macedonia.

JUNKIES.
Bulletin News Service.
Cold conditions here are fine. The late rainfall has greatly encouraged the people of this section. We are expecting heavy July yields this fall. Some of the farmers have decided to smother, and the present rains will insure quick germination.

The C.N.R. construction work at Junkins is in full swing. Messrs. James Williams, station builders, are making rapid progress with their work.

Messrs. Anderson and Anderson, merchants of Junkins, are improving the roads around them at their expense.

Junkins, July 3.

Winnipeg Permits Make Record.

Winnipeg, Man., July 3.—Building permits for June totalled \$2,199,556, a new monthly record for Winnipeg. The total for the year is \$18,551,550 against \$9,968,100 for last year. E. H. Keene, building inspector, says the figures for the year will pass the \$10,000,000 mark.

Toronto Pastor Resigns.

Toronto July 3.—Rev. A. A. Cameron, for 25 years pastor of the First Baptist church, Ottawa, has resigned. He may take another less onerous charge.

Ladies of Culture and Refinement Use Salvia Hair Tonic. It Makes the Hair Beautiful.

At last a remedy has been discovered that will positively destroy dandruff. Dr. T. J. Kella Gourdau's Oriental Cream or Magical Beautifier.

ALVIA will kill the dandruff germ and remove dandruff in ten days, or money back. Archibald Cameron, it will grow hair where itching, make the hair thick and abundant. It prevents the hair from turning gray, and adds life and lustre.

ALVIA is a hair-dressing that has become the favorite with women of fashion, who know the real value of beautiful hair. A large commercial bottle retail only 50c, at 10c in 10c. It is the only hair-dressing in the world that has been used for 100 years. It is the only hair-dressing in the world that has been used for 100 years.

THE SITUATION IN MOROCCO

Sultan's Consent Necessary Before Germany Can Secure Property

Morocco, July 2.—The Asadid refused to claim. The Kaiser recently refused to sell his lands there to the German as by the geographer agreement the consent of the Sultan is necessary to such sale.

Washington, D.C., July 2.—Germany has advanced the United States of the ending of the dispute between the two great empires—a remarkable achievement, considering the fact that for many hundreds of miles the two empires have been in contact, and the fact that the United States has been in the political phase of the situation. This country so far has taken no action in the Sultan's present dispute except make strong representations some time ago in regard to the capture of an American missionary by rebel troops.

The United States was signatory to the Algeiras convention but its interest centres in the development of American commerce and the protection of the lives and property of its citizens. This fact has been a reservation with which the American delegates signed the convention and emphasized in the senate's resolution of ratification.

The latter declares that this country's participation in the international conference at Algeiras was "without purpose to depart from the tradition of American foreign policy which forbids participation in such a conference unless it is a question of the rights of American citizens or the protection of American property."

FIERCE FIRE SWEEPS COBALT COUNTY

Fire breaks Out Simultaneously in Vicinity of Two Mills. Hon. Frank Cochrane and Party Have Race With Heat.

Cobalt, Ont., July 2.—One of the fiercest fires that ever struck the north end swept away the buildings on the Dome Extension and Pearl Lake mines yesterday. The fire seemed to break out simultaneously in different directions. The fire did not extend beyond Pearl Lake so far as known, but it is thought many camps in the reserve and western townships may have been in the path of the flames. Reports of other camps destroyed cannot be verified.

Hon. Frank Cochrane, J. L. Englehart, D. Marshall, H. Killington and a party were at Hollister when the fire swept down with a roar, enveloping the road in a mass of flames. Cochrane, Englehart and Marshall pulled down Pearl Lake. The road ran with death through the bush, reaching safety.

Drowned at Schick.

Schick, Man., July 2.—Caught in the race currents when the engine in the river here, St. H. McKean, a logger, who arrived in town on Friday after the up-lake season was done was drowned today. McKean was 23 years old and leaves a mother at home in Carlton, Maine. The body was later recovered by the police and aquatic instructions from Carlton as to its disposition.

Six Women Injured.

Montreal, July 2.—Six women were injured today when a ladder wagon answering a fire alarm call dashed into a car at the corner of Ontario street and City Hall avenue. Three of the victims sustained broken limbs, while the other three were badly bruised. All six had to be removed to the hospital. Both the wagon and the street car were badly damaged.

C.P.R. PASSES ITS QUARTER CENTURY

Quarter of a Century Since First C. P. R. Train Puffed Out of Montreal for the Pacific Coast.

Montreal, July 1.—It is twenty years ago this week that the first transcontinental train of the Canadian Pacific Railway, connecting the east with the Pacific coast, was a memorable occasion, marking the consummation of the greatest work that Canada had ever undertaken.

For a country with less than four millions of people to build a railway across the North American continent—the first and still the only one—was a monumental task. The two great oceans—a remarkable achievement, considering the fact that for many hundreds of miles the two empires have been in contact, and the fact that the United States has been in the political phase of the situation.

The latter declares that this country's participation in the international conference at Algeiras was "without purpose to depart from the tradition of American foreign policy which forbids participation in such a conference unless it is a question of the rights of American citizens or the protection of American property."

Drowned at Schick.

Schick, Man., July 2.—Caught in the race currents when the engine in the river here, St. H. McKean, a logger, who arrived in town on Friday after the up-lake season was done was drowned today. McKean was 23 years old and leaves a mother at home in Carlton, Maine. The body was later recovered by the police and aquatic instructions from Carlton as to its disposition.

Six Women Injured.

Montreal, July 2.—Six women were injured today when a ladder wagon answering a fire alarm call dashed into a car at the corner of Ontario street and City Hall avenue. Three of the victims sustained broken limbs, while the other three were badly bruised. All six had to be removed to the hospital. Both the wagon and the street car were badly damaged.

WILL DEMAND MORE REDUCTIONS

Washington, D.C., July 2.—

That the insurgent Republican

senators will not be satisfied

with the passage of only the

most recent and free list

of the Canadian reciprocity

bill, but will demand other

reductions, was announced

in a statement by Sen-

ator Charles McNamara of

Illinois. McNamara said

that the bill had a number of

conferences with the other

members of his party regard-

ing their program. He said he

would not consent to the ad-

option of the bill.

On Friday last work was

done on the bill by the com-

mittee on the part of the

senators. McNamara said

that the bill had a number of

conferences with the other

members of his party regard-

ing their program. He said he

would not consent to the ad-

option of the bill.

EDMONTON MEN CAPTURE HON

Calgary, July 3.—Edmonton

letes and horses were in the ground at the Calgary exhibition today and all contestants gave good account of themselves. The premier event of the day was the trot, which went to Blanche of Montreal, in three straight heats. In the first, Blanche of Montreal, in each heat, after trailing the leader half the distance, finished an winner. Oliver Crawford, owner of the champion, won the first of the 2:35 of Saturday, finished in place, with Harold B. a Calgary lad, in second.

The evening meet was the feature of the evening, and Edmonton well represented in Hondo, Car and and in the 2:35. The 2:35 was a mile race which was announced as the great event of the night. Lethbridge and Calgary opponents were in the race, but the race was never headed, finishing 150 in the lead. He was beaten, but

Buddo secured the broad jump
not second in the hundred and
226, being beaten by McLean, la-
sting champion, who ran a magnifi-
cent race.

In the hundred yards it was a
neck and neck finish, and many
thought that the first of the two
Cameron captured the shot put
many space and also secured a
in the broad and high jumps. It
was not in the shot put that he
arrived in town only a short time
fore the contest. With better re-
sults than he had a little more
he would have captured both the
and 250 yard races.

President Pogel declares this is
the true tale of the Philadelphia
event of the Phillies. Down in
gins with the Philadelphia "y-
jackey" was on Bret, Lehr on

"I know," quickly replied Jack. "But I never saw a man steal honest money before and when Miller said, 'I'm not a thief,' I was convinced. I was a big robber, but I was a thief with my own view of it."

[illegible]

near Gray was in fast company, Tilly sent the tall pitcher up pinch hitter every time one was needed and Gray religiously fanned, accumulating a batting average of .3 thing like .087 in April, May and June. When a scribe asked Gray what he did after the game ended, "Great guns, man, you ought to see the bit of marble-topped stuff have seen the three-bagger that I hit when we were playing Houston, March 29!"

The bit of marble-topped stuff was Walter Smith, one of Jimmy C. players. When Walter was asked if he insisted on walking a with men on first and third and

"I could fill up the bases and give Stanley another chance to catch a fly second, is equalled by one strike pulled a week or two before he let go. Says a Fort Wayne paperer:

A runner was on first, with a hand gun, when Stanley's turn came to bat. He hit a home run as a power hitter, so he asked Kansas City what he should do.

"Strike out to keep from hitting into a double," Jim said impatiently.

"And didn't he do it?" Jim asked when telling the story.

Looked at the runner who was in the groove and he never took him there, and then he came like a dog doing time me too pat him on the head and give him something to drink.

THE NEWS OF SPORT

LIVE SPORT CHAT

McConnell has won 12 in 14 in tries for Rochester this season.

"Admiral" Schell, the New York Giants catcher, has been unconditionally released.

Joe Kelley, manager of the Toronto Maple Leafs, calls Rochester to win out in the Eastern baseball league. He says McConnell is one of the greatest pitchers in baseball.

John Gannell is another of those slated for the management of the Cincinnati club to succeed Clark Griffith. It is said Gary Herrick regrets he let John go when he did, because it is a quarrel with Larry McLean, playing-out Charlie Smith, of whom the poets have written, but he can not seem to win with the Toronto. He is the starting pitcher for that club.

McNee, an older brother of the McNeese who is playing for the Shamrock intermediale. He is said to be a better man than the kid, and may be given an opportunity to make good with the seniors.

Foley, a goalkeeper, who has been playing with the St. Henri team, is trying out with the Capitals. Dupras formerly of the Nationals, has also turned out with the Capitals, and his release will likely be secured from the champions.

"Baiting" Nelson was among the spectators at the Vancouver-New Westminster lacrosse match on Saturday last, after while, he is still trying to find out why Canada prohibits prize fights and permits the national game.

Manager Con Jones, of the Vancouver team, has promised his players a trip that will provide them with a good time, and he has also promised that in other words he would let his team play games from Regina to Montreal, or in other words, he would let his team travel with the team.

President McCaffrey of the Toronto Hall Club, seems to have shorted secured from Brooklyn. He states that Smith has been purchased with the idea of having a good utility infielder always ready to play in case of injury to one of the regulars and not with the intention of depriving any of the present infield.

Hurry Holmes, who was tried out in

goal by the Toronto only in the conference. He may play in the Ontario team expected of him and had good to the Toronto. He is said to be a better man than the kid, and may be given an opportunity to make good with the seniors.

Miss Mayes Defeated
Pittsburg, July 3.—The most important feature of the Western Tennis Tournament of the Pittsburg Field Club was the game between Miss Mayes of Berkeley, Cal., National champion, and Miss Lyle Mayes of Toronto, Ont., champion of the Canadian and International tournaments. Miss Mayes won 6-4, 6-4, 6-4.

In the mixed doubles Miss Mayes and J. H. McLean defeated Mrs. T. R. Jacobs and Charles Garland, 6-4, 6-4, 6-4. Miss Mayes and J. H. McLean defeated Mrs. T. R. Jacobs and Charles Garland, 6-4, 6-4, 6-4.

Chicago, July 3.—Jimmy Doyle, third baseman for the Cubs, gained a victory when the National Commission declared the Louisville club of the American Association was indebted to him in the sum of \$225 as his share of the purchase money paid by President Murphy of the Cubs for his release, owner of the Louisville club offered a defense which did not appeal to the National Commission and was ordered to pay the money to Doyle.

Danlin Gets Humble.
New York, July 3.—Mike Donlin's friends in this city presented the former Giant captain with two separate bouquets of flowers. Mike Donlin's name set in large letters, while the Illinois captain of the Cubs' triumph this afternoon.
